

PPL 40 LASER WHEEL ALIGNMENT GAUGE

- Simple to use
- Conversion calculator from degrees to millimetres or inches
- Easy to calibrate
 - No cables, battery operated

- Accurate
- Precision engineered
- For use on car, truck and bus
- Can be used on vehicle lifts
 - Low beam height
 - Robust

www.agequipment.co.uk

We have been manufacturing the industry's best-selling wheel alignment gauge, for more than 30 years.

The PPL40 has been produced to address the demands of fast track workshops requiring reliable and accurate measurement.

Cars, trucks and buses, particularly new vehicles with low ground clearance or extended front ends, benefit from its new features.

New large mirror close to ground for maximum visibility beneath vehicle with low ground clearance

Large adjustable Laser target plate positioned close to ground for maximum visibility beneath vehicles with low ground clearance

Easy to read scales with conversion from degrees to millimetres or inches

This high precision product, designed and engineered for accuracy and durability, reads the combined toe angle on almost any vehicle.

Operated by two long-life AA batteries typically changed every 6-12 months, PPL40 is an

essential tool for all vehicle workshops, tyre fitting bays, race/rally car preparation areas, technical schools and training establishments.

Unlike most other makes, PPL40 can also be used on a vehicle lift as well as on the ground. It is quick and easy to use, simple in operation and can be calibrated on site without any special equipment.

All types of vehicles can be accommodated with short or large overhangs

With a minimal footprint, the new PPL 40 has been designed to fit onto ramps and lifts

Specification

Wheel rim capacities	8" - 24" rim diameter
Measuring range	+/- 2 deg
Laser beam height	Under 50 mm
Electrical	Battery: 2 x type AA 1.5 volts (typical life 6-12 months, dependant on use) Switch: momentary operator pressure (Power off when not depressed)
Estimated battery life	6 - 12 months, dependant on use
Laser	Class 2, eyesafe, 650nm, 1.0 Milliwatt

PPL40 LASER WHEEL ALIGNMENT GAUGE

Optional extra equipment

- PPLCC Aluminium storage / carry case

- PPLCC open, showing safe storage compartments

- PPL42 Large mirror and frame for use on commercial vehicle twin steering axles.

- PPLBL Power Cable from cigarette lighter
